

## ***SHELL FREEZER / CRYO BATH***

### **GENERAL SPECIFICATION :**

- Pre-freezing system to freeze samples down to  $-40^{\circ}\text{C}$  before lyophilization.
- Flask rolling kit to up-grade freezing rate of samples with the increase of the interior surface area of flask.
- The stainless steel bath compartment accommodates a wide variety of sample containers including serum bottles, ampuls and flask up to 1200ml in size.
- Temperature monitoring function with digital thermometer inside bath.

### **CONTROL SYSTEM :**

- Switch control for refrigeration and roller rotation.

<b>Model</b>	<b>SF-40/CB-80</b>
Max. temperature	$-40^{\circ}\text{C}$ / $-80^{\circ}\text{C}$
Dimension (WxDxH)	Ext. 500x650x1000
Roller	Two chain-driven roller
Load	2 bottles
Materials	Stainless steel interior
	Gray epoxy coated steel
Compressor	3/4hp x1
Electric	220V 1ph
Weight	110Kg
