## -164°C and -152°C FREEZERS

### Description :

- Accurate temperature control by an electronic controller.
- Adjustable temperature setpoint from -100 to -164°C (-100 to -152°C for LA-258-152 model).
- Capacity of 258L (LA-258-152 model) and 128L (LA-128-164 model)
- Digital display for temperature 0.1°C accuracy and working status of the unit.
- Keyboard lock using a code to prevent access to the freezers settings from being changed randomly.
- Audible and visual alarms powered by a battery for high and low temperature, dirty condenser filter, abnormal system status, open door and low voltage.
- Remote alarm potential free contacts available to connect the freezer on an external surveillance network.
- A safety lock will prevent access to the freezer to unauthorized persons.
- The unit is mounted on 4 freely rotating casters.
- CFC-free air cooled refrigeration system.
- Capacity of 16 racks (LA-258-152) et 8 racks (LA-128-164)

Model	Capacity	Temperature	Dimension (out)	Dimension (in)	Power supply	Weight
LA-258-152	258L	-100 ~ -152°C	890x2005x1009	410x1140x552	380V 3Ph	330Kg
LA-128-164	128L	-100 ~ -164°C	880x2005x1009	370x600x550	380V 3Ph	215Kg
